

PLASTIC STRAPPING

Complete Packaging Products offers all varieties of Plastic Strapping; Poly Cord, Polyester and Polypropylene. To utilize your plastic strapping we carry a broad range of Strapping Tools. Our Sealless Combo Tools are Swiss Engineered by Orgapak and Fromm. Our hand tools include Windlass Tensioners and Sealers that will fit any job or budget.

Poly Cord Strapping

is constructed of high strength polyester with increased elastic properties, offering reliable elasticity and strength for your light-to-heavy duty bundling, tying and unitizing applications.

Width	Average Break Strength	Approx. Length	Weight per Coil
1/2"	650 lbs.	3900'	18 lbs.
3/4"	2400 lbs.	1650'	22 lbs.
1 1/2"	5400 lbs.	600'	17.58 lbs.

Polypropylene Strapping

is the economical strapping option for light to medium duty unitizing, palletizing and bundling. Our poly strapping is embossed for strengthened seal joints and increased split resistance. The core sizes are 16x6" and 9/8x8". Polypropylene offers higher elongation and elongation recovery properties to ensure secure packaging for shipping and storage.

Width	Average Break Strength	Approx. Length	Weight per Coil
1/2"	300 lbs.	9000'	19 lbs.
1/2"	600 lbs.	7200'	30 lbs.
1/2"	350 lbs.	9900'	22 lbs.
1/2"	400 lbs.	9900'	26 lbs.
3/8"	300 lbs.	12900'	29 lbs.
1/4"	200 lbs.	18000'	28 lbs.

Polyester Strapping

One of the strongest plastic strapping products, polyester strapping works as an alternative to steel strapping for industries such as brick, lumber and textiles. Polyester will stay tight on rigid loads while still absorbing impact without snapping due to its specific tension properties. Cores are 16x6".

Width	Average Break Strength	Approx. Length	Weight per Coil
1/2"	600 lbs.	7200'	42 lbs.
1/2"	775 lbs.	5800'	46 lbs.
1/2"	800 lbs.	6500'	50 lbs.
5/8"	1400 lbs.	4000'	53 lbs.
3/4"	1900 lbs.	3000'	55 lbs.

PLASTIC STRAPPING DISPENSERS

STRAP & CORNER PROTECTORS / STRAP STAPLES

PAPER PRODUCTS

At Complete Packaging Products, we carry a full array of paper products for use in packaging and shipping. Need to wrap your shipment or protect layers of strapping from moisture and vapor seepage? Use our kraft paper vapor barriers, poly-coated kraft paper sheets, or corrugated barriers for maximum strength, durability, and protection!

Poly Coated Kraft Paper

Heavier duty protection from water, grease and oil. Virgin kraft paper coated with gloss poly on one side. Recommended for protecting metal parts and tools. Poly coating provides added tear strength.

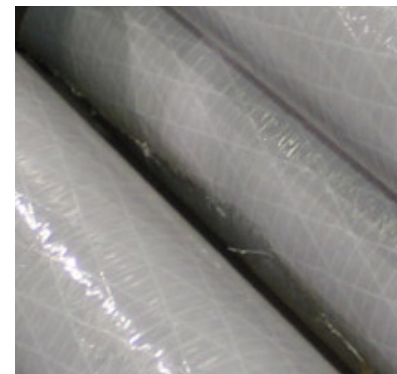

POLYCOATED

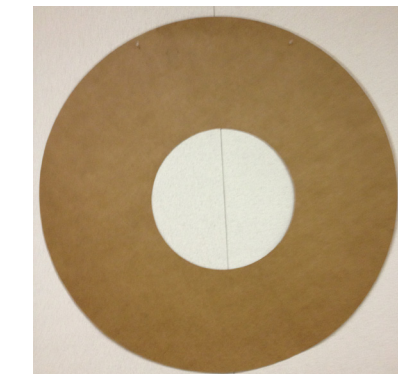

FLEXIBLE

Single Face Corrugated Flexible Paper

Single Face Corrugated conforms to all shapes and sizes. Single Face is kraft "B" flute corrugated. Approx. 1/8" flutes provide shock absorbing cushioning. Use to protect wood or carpet flooring during construction. Great for protecting metal or glass parts from scratching and breakage.

SCRIM PAPER

VAPOR BARRIER

Scrim Paper for Steel Wrap

Scrim is a white, poly coated, 50 lb. natural kraft paper reinforced with tri-directional scrim.

Vapor Barriers

Our vapor Barriers are paper products used to separate items or loads and prevent moisture seepage between layers of a package.

STEEL STRAPPING

Complete Packaging Products steel strapping is available as shown on the chart. Our steel strapping is made in the USA and meets or exceeds all AAR & ASTM specs. All coils have the standard 16" IDs, OD sizes vary.

Regular duty strapping is manufactured from cold rolled steel under rigid quality control. Precise uniformity in width, gauge, and finish ensures trouble-free operation with automatic strapping machines and pneumatic or manual strapping tools.

High tensile strapping is manufactured of special analysis cold rolled steel and is fully heat treated to provide high tensile strength and dexterity. The cold rolled high tensile strapping ensures uniformity in gauge and finish for trouble-free operation in power tools. High tensile strength affords extra protection under all strapping conditions.

Width	Average Break Strength	Approx. Length	Weight per Coil
Regular Duty			
3/8" x .015"	670 lbs.	5229'	105 lbs.
3/8" x .020"	880 lbs.	3922'	105 lbs.
1/2" x .015"	890 lbs.	3922'	105 lbs.
1/2" x .020"	1180 lbs.	2942'	105 lbs.
1/2" x .023"	1350 lbs.	2558'	105 lbs.
5/8" x .020"	1470 lbs.	2353'	105 lbs.
5/8" x .023"	1690 lbs.	2153'	105 lbs.
3/4" x .020"	1770 lbs.	1961'	105 lbs.
3/4" x .023"	2030 lbs.	1705'	105 lbs.
High Tensile			
3/4" x .025"	2675 lbs.	1569'	105 lbs.
3/4" x .029"	3205 lbs.	1330'	75 lbs.
3/4" x .031"	3305 lbs.	1265'	105 lbs.
1 1/4" x .025"	4620 lbs.	941'	105 lbs.
1 1/4" x .029"	5530 lbs.	811'	105 lbs.
1 1/4" x .031"	5650 lbs.	759'	105 lbs.
1 1/4" x .035"	6655 lbs.	672'	105 lbs.
2" x .044"	12900 lbs.	334'	120 lbs.

STEEL STRAPPING

- provides strong reinforcement
- permits reduction of container board strength
- permits carton re-use
- is the strongest strapping material size for size
- offers widest range of widths and thicknesses
- provides highest tension
- has highly stable mechanical properties
- withstands impact
- resists abrasion
- is impervious to ultraviolet light rays

MANUAL/PNEUMATIC STEEL STRAPPING TOOLS

We carry three tool systems (steel strapping tensioner, sealer, and cutter) or you can purchase a combination tool that will eliminate the need for separate, fixed-use single-purpose tools, without the cost of strapping seals. If ergonomics are a concern, pneumatic steel strapping tools are easy to use and are durable. Steel Strapping Carts designed for use with steel strapping products are sturdy, mobile, and specifically made to make your job easier. No matter what you require, Complete Packaging Products has the tools for you.

Each type of tool is designed for ergonomics and safety for a particular strapping situation. Ensure your success and safety by calling us at 866-787-2790 to speak to a steel strapping expert and find the best tools for you!

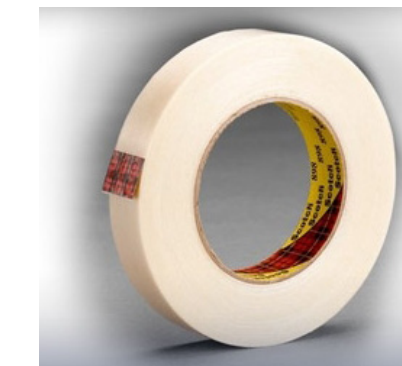

PLASTIC & CORD STRAPPING TOOLS

STRAPPING TAPES & ACCESSORIES

You've got your Complete Packaging Products Steel or Plastic Strapping and your Tools ready, but something's still missing, that piece that's just right for your specific job. Luckily we carry a wide array of Strapping Accessories including Intersection Seals, Corner and Strap Protectors, and Staples. We carry name brand (Tesa, 3M & Shurtape) adhesive products as well as other economical alternatives. Our adhesive products include Carton Sealing, Masking, Filament and Specialty Tape.

- Carton Tapes
- Masking Tapes
- Filament Tapes
- Speciality Tapes

COIL SEPARATORS

Our plastic coil separators are used to separate coils of slit steel during warehousing and shipping. Allows for easy non-slip handling without suffering from moisture damage, dust, or splintering of wood or pressed paper separators. Plastic coil separators can support heavy loads, and they feature uniform thickness throughout.

- Made in the USA
- Strong, durable Plastic Coil Separators
- Multiple sizes and options

STRETCH FILM

The packaging industry experts at Complete Packaging Products, carry the best Stretch Film on the market to keep your bundled packages from shifting or falling during shipping. Whether you're transporting pallets of pavers for hardscape designs, several small cartons or anything in between, our Stretch Film is flexible and durable enough to support any bundle.

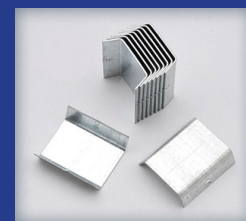

- Made in the USA
- Long-lasting, durable Stretch Film
- Various sizes and prices

STRAPPING SEALS

CLOSED (push on), OPEN/SEMI-OPEN (snap-on), and MAGAZINE SEALS

Complete Packaging Products carries only high-quality strapping seals and wire buckles for both Steel and Poly Strapping. Our seals are made from prime quality steel for proper joint efficiency and include galvanized coating as a corrosion inhibitor.

CPP SPECIALIZES IN THE FOLLOWING PRODUCTS

- Steel Strapping
- Slit Coil Separators
- Poly Strapping
- Stretch Film - Hand & Machine
- Polyester Strapping
- Stretch Film Machines
- Steel & Plastic Seals
- Vapor Barrier Paper
- Strapping Tools & Accessories
- Coil Wrap Paper
- Strapping Machines
- Corrugated Donuts
- Corner Protectors
- Vinyl Coated Donuts
- Bubble Wrap & PE Foam
- Speciality Papers
- Tape & Tape Machines
- Anti-tarnish Papers
- Poly bags/Bin Liners
- Wiping Cloths

CUSHIONING

Designed with high quality, Complete Packaging Products, Bubble Wrap and Foam Cushioning are the best on the market. Made with economical nylon barrier layer and Microfoam, we have all sizes in stock, ready for immediate shipment. We guarantee that all suppliers meet or exceed manufacturing specifications. Our comprehensive line is sure to have everything to meet your Cushioning Material needs.

FOAM CUSHIONING

BUBBLE WRAP CUSHIONING
